## PROJECTS

### Fit Bull - Gym Exercises

🌐 [GitHub](#) | 🌐 [Website](#)

- Developed a gym exercise web application with search functionalities
- Utilized components for customization, implemented navigation, and ensured optimal performance with efficient bundling techniques.
- Successfully integrated an external API, seamlessly fetching and displaying data to enrich the application's content and functionality.

### Trippz - Travelling Agency

🌐 [GitHub](#) | 🌐 [Website](#)

- Designed and implemented a sleek, responsive interface for a React-based website.
- Engineered dynamic and responsive user interfaces using React components, seamlessly integrating React Router for efficient single-page application navigation.
- Implemented robust state management in React, contributing to a smooth and reliable web experience with responsive design principles.

### FreshMeal Shop

🌐 [GitHub](#) | 🌐 [Website](#)

- Developed the front-end of a food ordering platform, creating a seamless user experience.
- Enhanced user engagement through a responsive carousel displaying top products.
- Ensured device compatibility with a responsive design strategy that adapts to various screen sizes using media queries.

## EDUCATION

### Veer Surendra Sai University of Technology

Sambalpur, Odisha

*Bachelor Of Technology in Electrical Engineering*

*Aug 2015 – June 2019*

- Cumulative GPA : 6.61/10.0
