WORK EXPERIENCE

HyScaler

Aug 2025 – Present

SDE-1

- Developed a **RAG microservice** using **Postgres + pgvector**, achieving **75–80% improvement** in context-aware responses.
- Implemented document extraction pipeline using **Docling, Kreuzberg, and Unstructured** with **Hugging Face embeddings**, achieving **90% similarity** in semantic search.
- Configured **Celery with Redis** for offloading document processing, enabling **parallel extraction** and optimized resource usage; integrated **Flower** for task monitoring.
- Built and deployed **FastAPI** backend microservices exposing **RESTful APIs** for the document text-extraction pipeline, cutting manual review time by **50%**.
- Designed an aggregated cache layer using **Redis HSET/ZSET** data structures in place of standard key-value caching, cutting cache lookup time by **40%**.
- Implemented **SAML-based Single Sign-On (SSO)** to authenticate users into a partner health-service platform via **IdP-issued assertions**, removing the need for separate credential entry.

Junior Software Developer

Aug 2024 – July 2025

- Improved query performance using **MongoDB aggregation pipelines** on a large prescription dataset, implementing **pagination** to eliminate load timeouts.
- Automated monthly emails and membership workflows via **cron jobs**, using **Node.js worker threads** to parse and process large-scale **CSV data**, removing manual processes and achieving **100% uptime**.
- Integrated **Gemini, Amazon Bedrock, and OpenRouter** with structured data output for downstream processing.
- Built and deployed a microservice to list application on **ADP Marketplace**, enabling employer lifecycle management, bringing **25 new employers**.
- Set up a lightweight **CI/CD pipeline** using **GitHub webhooks** to automatically deploy projects to a **VPS** on every push, eliminating manual deployment steps.

Software Developer Apprentice

Jan 2024 – July 2024

- Implemented **Spatie Role-Permission package** and configured **Laravel jobs/queues** for scalable role management and background API processing in CRM.
- Integrated **GraphQL endpoints** for flexible querying and improved client-server communication.

Infophy

Sept 2023 – Jan 2024

Frontend Developer Intern

- Designed responsive landing and product pages for a multi-vendor **WordPress + WooCommerce** e-commerce platform, improving product display and search speed.

Invicta Ltd

Dec 2023 – Mar 2024

Frontend Developer

- Integrated **Shopify GraphQL APIs** for product data and checkout functions.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, TypeScript, HTML/CSS, PHP, Markdown
- **Frameworks & Libraries:** FastAPI, Node.js, NestJS, React, Next.js, Tailwind, Laravel, GraphQL, Astro
- **Databases:** PostgreSQL, MongoDB, pgvector, MySQL
- **Tools & Platforms:** Claude Code, Antigravity CLI, OpenCode, Git, GitHub, GitHub Actions, Docker, GitLab, VPS, Nginx, Caddy, Celery

OTHER ACTIVITIES

- **Open Source Contributions:** Contributed to repositories like **Brave, LangChain, Stanford NLP, LangChain** etc. – dushmanta.dev/oss-contributions
- **Technical Blogging:** Write about things I learn and build to help others – dushmanta.dev/blog

EDUCATION

VSSUT, Burla

Bachelor of Technology in Electrical Engineering

2015 – 2019

Burla, Odisha
